Potable and Non-Potable Water Tanks

Whether it's water for animal drinking or for general use including vehicle washing, the Kingspan range of large capacity, potable and non-potable water storage tanks provide the best solution on the market.

- Manufactured from UV resistant medium density polyethylene
- Fitted as standard with 2" BSP male outlets which can be connected onto copper, pex, hydrocare etc
- Tough and durable
- Rust, rot and weather resistant
- Recyclable
- Fitted with a sealed 16" hinged manhole cover to allow easy access for fitting of ballcocks, floats and extra outlets
- All water tanks require a solid base for installation

Potable Water Tanks

Specifically designed to store water for animal drinking or emergency human consumption, Kingspan potable water tanks fully meet UK Water Regulatory requirements (WRAS approved).

Non-Potable Water Tanks

Designed as a basic water storage tank for non-drinking (not intended for human consumption) use such as vehicle washing, irrigations and washdowns.
